

**35 years of  
experience and  
expertise serving  
the Corsican air  
service**

# Presentation

Air Corsica was set up by the Corsican regional authorities in January 1989 to improve air services to Corsica.

It has a fourfold objective :

- Offer Corsica control over its air transport resources in order to establish a high-quality public service,
- Increase the frequency and reliability of on-board services by choosing a fleet that is particularly well suited to the service,
- Expand its network in France and Europe,
- Contribute to the economic and social development of the island.

# Air Corsica, in summary

## **A corporate culture :**

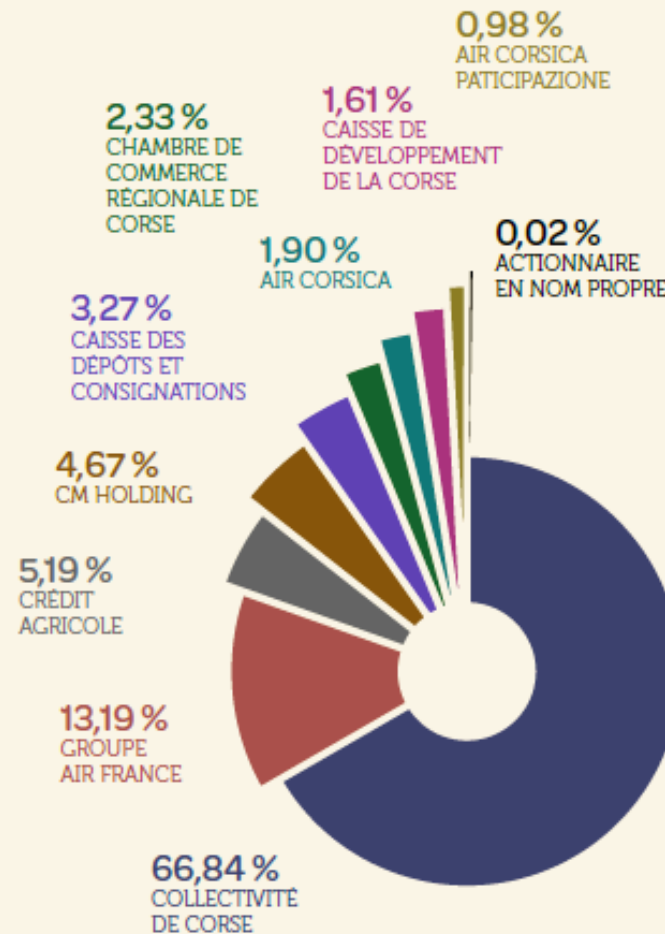

- Commitment to territorial continuity
- Technical know-how
- Supporting and training new generations
- Great career opportunities in Corsica
- Strong values

## **A multi-site company operating between :**

- Head office in Ajaccio, with a main base in aircraft maintenance
- Secondary maintenance base and crews in Bastia
- Three airport stopovers in Marseille, Nice and Paris-Orly
- Four island airports : Ajaccio, Bastia, Calvi and Figari

# Shareholding

Air Corsica is majority-owned by the Corsican regional authorities (66.84%)

# Corporate governance

**Marie-Helène CASANOVA-SERVAS**

President of the Supervisory  
Board

**Pierre MURACCIOLE**

Chairman of the Management  
Board

**Hervé PIERRET**

Member of the Management  
Board

# Key figures

Year 2023

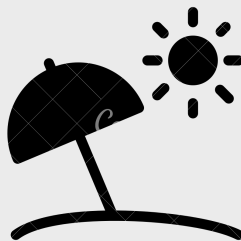

**758 EMPLOYEES ON THE GROUND  
AND IN THE AIR**

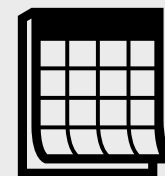

**1ST AIR CARRIER IN CORSICA  
4TH LARGEST COMPANY IN CORSICA**

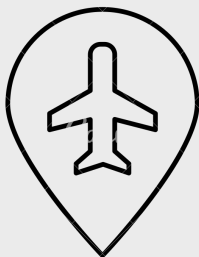

**13 AIRCRAFT  
22 800 FLIGHTS A YEAR**

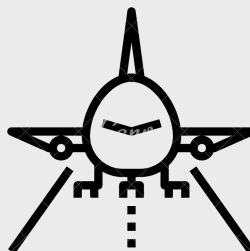

**18 SEASONAL ROUTES**

**99.6% REGULARITY RATE**

**36 DESTINATIONS FROM  
CORSICA**

**18 AIRPORTS SERVED**

**76.3% PUNCTUALITY RATE  
(DELAYS > 15 MINUTES)**

# Network

With more than two million passengers carried in 2023 to and from the island's four airports : Ajaccio, Bastia, Figari and Calvi, Air Corsica is the leading carrier in Corsica, with a very strong presence in winter, handling 88% of air passenger traffic in winter.

# Fleet

Since its first flight in June 1990, Air Corsica has been committed to offering its customers a high-quality service. Its creation has made it possible to increase the frequency of rotations, reduce fares and create a real air bridge between Corsica and the main country. To increase the number of seats offered, the company has equipped itself with a fleet that is particularly well adapted to its network and regularly modernised.

This modernisation is also part of an objective to reduce its environmental impact, as part of its "Ambizione 2025" sustainable development strategy.

**AIRBUS A320neo**

**Capacité** 186 sièges

**AIRBUS A320ceo**

**Capacité** 180 sièges

**ATR 72-600**

**Capacité** 72 sièges

# Sustainability strategy

Air Corsica, an airline committed to sustainable development with “AMBIZIONE 2025”

## To reinforce and promote common values

Identity  
Proximity  
Ethics  
Experience  
Performance  
Health and safety  
Trust and collaborative work...

in its daily work internally and with its partners, as well as in the quality of service to its customers.

## To improve the environmental performance of its activity

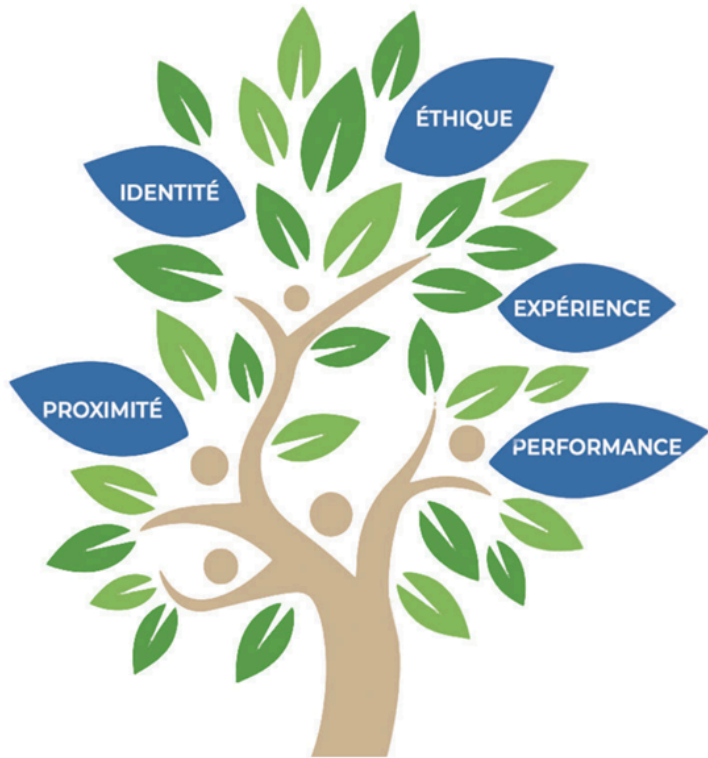

85% of the fleet renewed and 16% reduction in CO2 emissions by 2025,  
  
1st French airline to deploy selective sorting on board all its aircraft,  
  
Investments in research and energy innovation...

## To amplify its social and territorial anchorage

Training of personnel,  
  
Sensitisation of the island's youth to the air transport sector,  
  
Air Corsica's commitment to the social and cultural life of the Corsican territory through more than 200 associations and partners...

# Values charter
